Part IV: Diagnostic Assessments

Diagnostic assessment is a particular type of formative assessment intended to help educators identify students’ specific knowledge, skills, and understanding in order to build on each student’s strengths and specific needs. Because of their domain specificity and design, diagnostic assessments can guide curriculum planning in more specific ways than most summative assessments.

5. Please select the **academic** diagnostic assessments predominantly used in each grade level in your LEA to monitor, assess, and target supports for student learning. The list below is not exhaustive and contains places to include diagnostics not listed.

School/District Reopening Plan Equity Rubric: Attending to Needs of the Most Vulnerable Populations

Developed by:

Overview: This tool is designed for districts and schools to assess the quality of their reopening plans by focusing on the most vulnerable populations the organization serves. The rubric is derived from a variety of resources and research provided by The Education Trust, The Aspen Institute, Chiefs for Change, Digital Promise, and other organizations deeply engaged in equitable school reopening for all students. The rubric:

- Is **NOT** designed to answer every question and assess every aspect of an organization's reopening plan.
- **IS** designed to help analyze how reopening plans attend to equity for their most vulnerable populations.
- Is **NOT** designed to add another layer of complexity to the planning process.
- **IS** designed to help schools and districts easily surface gaps in their plans in relation to serving the most vulnerable populations.

Identification of Most Vulnerable Population. The district/school has identified the most vulnerable population it serves including low income students, students of color, English learners, students with disabilities, students experiencing homelessness, foster care students, incarcerated youth, etc.

1	2	3	4
Most vulnerable population has not been identified	Most vulnerable population has been identified	Most vulnerable population has been identified and there is an updated database and plan for continuous updating in place	Most vulnerable population has been identified, there is a regularly maintained database, and the planning process includes representatives from the most vulnerable population

Critical Supports for Most Vulnerable Students and Families. The district/school has planned to provide *meals*, a process to identify students for *IEPs* and methods for serving those who already have them, and *mental health services* to the most vulnerable students and families the organization serves.

1	2	3	4
Reopening plan does not specifically address critical supports	Reopening plan addresses critical supports for one reopening model only (e.g. moderate social distancing)	Reopening plan addresses critical supports for multiple reopening models (e.g. mild and moderate social distancing and complete virtual model)	Reopening plan addresses critical supports for multiple models and spells out contingency plans in case of COVID-19 resurgence in school, district, and/or community

Educational Services for Vulnerable Populations. The district/school has planned to assess learning loss and provide additional academic supports for their most vulnerable students to ensure equitable access to grade-level coursework.

1	2	3	4
Reopening plan does not specify academic interventions or supports for most vulnerable students	Reopening plan specifies how to assess learning loss for most vulnerable students	Reopening plan specifies how to assess learning loss for most vulnerable students and provides curricular guidance and teaching resources for principals and teachers to use with most vulnerable populations	Reopening plan specifies how to assess learning loss for most vulnerable students, provides curricular guidance and teaching resources for principals and teachers to use with most vulnerable populations, and makes all guidance and resources easily accessible to staff and families

Operations and Resources for Vulnerable Populations. The district/school has planned to operationally support the most vulnerable population and aligned adequate resources to those operations. This includes technology access, transportation, clean and socially distant facilities, PPE and safety, and athletics.

1	2	3	4
Reopening plan does not specify how operations and resources will specifically serve vulnerable populations	Reopening plan specifies how operations and resources will specifically serve vulnerable populations for one reopening model only (e.g. moderate social distancing)	Reopening plan specifies how operations and resources will specifically serve vulnerable populations for multiple reopening models (e.g. mild and moderate social distancing and complete virtual model)	Reopening plan specifies how operations and resources will specifically serve vulnerable populations for multiple reopening models and spells out contingency plans in case of COVID-19 resurgence

Communication with Vulnerable Populations. The district/school is prepared to regularly communicate plans for reopening with caregivers of the most vulnerable population and is prepared to communicate contingency plans.

1	2	3	4
Reopening plan does not include a communication strategy or plan for most vulnerable population	Reopening plan outlines a generic communication strategy for all populations	Reopening plan outlines multi-channel, ongoing communication that is targeted to the most vulnerable population	Reopening plan outlines multi-channel, ongoing communication with the most vulnerable population and leverages community partners in the communication process

Staffing for Most Vulnerable Populations. The district/schools has planned to adequately provide staff and support that staff in their service of most vulnerable populations.

1	2	3	4
Reopening plan does not include a staffing strategy nor professional development for staff serving the most vulnerable population	Reopening plan includes a staffing strategy but no plans for professional development for staff serving the most vulnerable population	Reopening plan includes a staffing strategy and plans for professional development for staff serving the most vulnerable population	Reopening plan includes a staffing strategy and professional development for serving the most vulnerable population. All staff are clear on their roles & responsibilities

Parent/Caregiver Supports for Virtual Learning. The district/school has a specific plan for supporting parents/caregivers in their critical and often new/unknown role as "home learning coaches" for their children. This includes how to best support a child's learning without doing the learning for them. This also includes creative systems and structures that enable parents to get back to work while feeling confident that their child is getting the support they need.

1	2	3	4
Reopening plan does not include a strategy for supporting parents/caregivers	Reopening plan includes a one-time support opportunity but no sustained support for parents/caregivers	Reopening plan includes sustained support for parents/caregivers	Reopening plan includes sustained support for parents/caregivers and process for frequent feedback and revisions of support

Notes:

- Which vulnerable populations are you serving and/or considering related to your reopening plan?
- What gaps need to be addressed?
- What is your plan for monitoring implementation and making course corrections as needed?
